

**// PRESSURE REDUCING
VALVE (PRV)**

**REDUCE A HIGH AND
FREQUENTLY
FLUCTUATING
PRESSURE TO AN
ADJUSTABLE
CONSTANT PRESSURE
DOWNSTREAM OF THE
VALVE.**

**A SPRING KEEPS THE
VALVE OPEN AND THIS
CLOSES AS THE OUTLET
PRESSURE RISES.**

MYAN STEAM

**STEAM AND
FLUID EXPERT !**

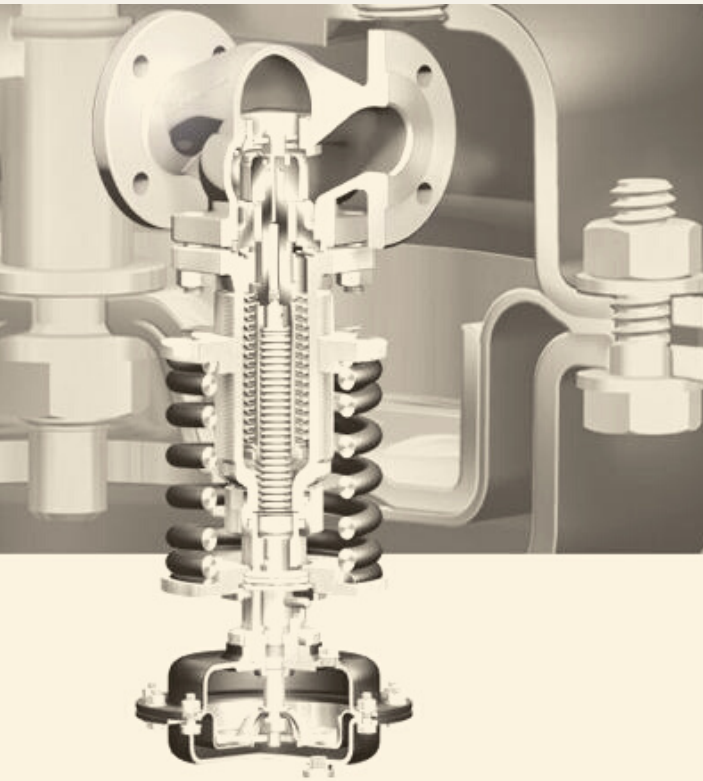

MYANMAR //

PRV //

Pressure Reduce , Pressure Regulate လုပ်ရန်လိုအပ်လာပြီ ဆိုရင်တော့ MYAN STEAM ရဲ့ Supply Product များကတော့ မိမိ လုပ်ငန်း အတွက် စိတ်ချရပြီး ၊ ကြာရှည် အသုံးခံတာကြောင့် စိတ်ပူစရာမလိုပဲ 24 Hour Operation များ အတွက် စိတ်ချရပါတယ်။

Steam , Gas , Fluids & Liquid အမျိုးမျိုး မှာ တပ်ဆင် အသုံးပြုနိုင်ပြီး ၊ Sizing Support အပြင် တပ်ဆင်ရန် အတွက် Correct Design Support ကိုပါ အခမဲ့ ရရှိ မှာ ဖြစ်ပါတယ်။

WE SUPPLY ALL DIFFERENT TYPES OF PRESSURE REDUCING VALVES

PRV47 //

The ADCA PRV47 pilot operated pressure reducing valves are designed for use with steam, compressed air, nitrogen and other gases compatible with the construction materials. The PRV47 can be installed in pressure reducing stations throughout all industries, and provide sensitive and accurate control even when inlet pressure fluctuations or relevant flow variations occur.

ARI-PREDEX //

ARI-PREDEX excess pressure regulator, straight through with diaphragm actuator. application for Steam, neutral gases, vapours and liquids, etc.

MYAN STEAM //

ARI-PREDU //

Pressure reducing valve with diaphragm actuator. Application for Steam, neutral gases, vapours and liquids, etc.

PRV 45 //

ARP45 The ADCA RP45 series pressure reducing valves are single seated, bellows sealed controllers that operate without auxiliary energy. Designed for use with steam, compressed air, and other gases compatible with the construction. They are particularly suitable for reducing steam pressure in all energy and process systems where pressures must be kept under control.
